miniland dolls

Dolls of the world

At Miniland we have one objective. Have little ones' talents shine in an adventure into the future where learning and creativity flow with a unique energy full of joy.

We are here to accompany you along this journey, the one of discovery, to push little one's talent to its full potential and inspiring them to do their very best.

We want to contribute to a world that is more open, inclusive and tolerant towards diversity

With our doll collection, we will help little ones understand their own emotions, values of inclusivity and coexistence through fun and play.

“By promoting empathy and accepting people of any race, gender or condition”

Every single one of our dolls is handmade in Spain. They are soft and they have defined features.

They are anatomically correct, which means that they look exactly the same as real babies and they help children learn about their differences and similarities, thus promoting empathy and their acceptance of people of any race, gender or condition.
