# Dolls of the world

Our Miniland Dolls collection focuses on helping little ones understand they belong in the world: by promoting inclusivity and acceptance, identifying emotions, and respecting the feelings of others; all through the fun and value of play. Available in an array of ethnicities and genders, our Dolls hope to represent the beauty of our differences, respecting every child, no matter their origin, sex, or condition. In addition, our Dolls help enhance social and cognitive abilities and enhance creativity through independent play in the classroom or at home.

**We want to contribute to a world that is more open, inclusive and tolerant towards diversity**

---

By promoting empathy and accepting people of any origin, gender or condition.

---

## Fostering empathy and tolerance

---

At Miniland we understand that we live in a colorful world where diversity is a constant reality. The skin color or physical features of a person don't need to be linked to any nationality or geographical area today, but in order to simplify the nomenclature of our dolls in this catalog, we will refer to them as "Caucasian", "Asian", "African" and "Hispanic", understanding that this is the origin of their ancestry and which has given rise to their characteristic phenotypic traits. Always from a perspective of respect and the desire to promote the value of tolerance towards diversity among children.

---

---

Each of our dolls is handmade in Spain. They are soft and have defined features.

They help children learn about their differences and similarities, thus encouraging empathy and their acceptance of people of any condition.

---

---

We present various ranges in different sized versions. Highlighted by well defined features to help identify the most representative origins. Their heads, arms and legs are jointed to provide them with mobility. Suitable for collective use.
