

miniland dolls

2022 Collection

Dolls of the world

At Miniland we have one objective. Have little ones' talents shine in an adventure into the future where learning and creativity flow with a unique energy full of joy.

We are here to accompany you along this journey, the one of discovery, to push little one's talent to its full potential and inspiring them to do their very best.

**We want to
contribute to
a world that
is more open,
inclusive and
tolerant towards
diversity**

With our doll collection, we
will help little ones understand
their own emotions, values
of inclusivity and coexistence
through fun and play.

Fostering
empathy and
tolerance

Each of our dolls is handmade in Spain. They are soft and have defined features.

They are anatomically correct, that is, they look just like real babies and help children learn about their differences and similarities, thus encouraging empathy and their acceptance of people of any condition.

We present various ranges in different sized versions. Highlighted by well defined features to help identify the most representative races. Their heads, arms and legs are jointed to provide them with mobility. Suitable for collective use.
