2022 Collection

Dolls of the world

At Miniland we have one objective. Have little ones' talents shine in an adventure into the future where learning and creativity flow with a unique energy full of joy.

We are here to accompany you along this journey, the one of discovery, to push little one's talent to its full potential and inspiring them to do their very best.

We want to contribute to a world that is more open, inclusive and tolerant towards diversity

With our doll collection, we will help little ones understand their own emotions, values of inclusivity and coexistence through fun and play.

**Fostering
empathy and
tolerance**

Each of our dolls is handmade in Spain. They are soft and have defined features.

They are anatomically correct, that is, they look just like real babies and help children learn about their differences and similarities, thus encouraging empathy and their acceptance of people of any condition.

We present various ranges in different sized versions. Highlighted by well defined features to help identify the most representative races. Their heads, arms and legs are jointed to provide them with mobility. Suitable for collective use.
