U.S. COLLECTION | 2022

The background is a dark teal color with vertical white lines. A large, light blue crescent moon is on the right, with a white silhouette of a child standing on it and pointing up. Several stars of different sizes and colors (white, light blue, dark blue) are scattered throughout. There are also stylized clouds in dark teal and light blue. The overall theme is a night sky with a child reaching for a star.

miniland

Every night from my window I would gaze up at the stars, wishing I could have one.
Beautiful stars, all different, each with their own light and energy, pure and twinkling with color.
I wished for a staircase to reach the heavens so as to trap my own star.

Just like the stars in the sky, children's intelligence is not a unique, static quality – they are all unique and special.
Creating play experiences to nurture and develop their innate intelligences means setting off on a voyage into an enriching future in which every child's growth **shines with their own energy and light**.

Welcome to our voyage to the stars!

Our Story

At **Miniland**, we have been accompanying parents, teachers, and children on their journey of growth for more than 50 years. The extensive experience in schools worldwide, our close collaboration with teachers and educators, and the trust of the educational community make our educational toys a consolidated option for schools and other educational establishments around the world.

Our Mission

Empowering parents, educators and children to develop together all their potential.

Our Vision

Building a better world where each child can shine with their own light.

Our Purpose

Teaching About Social & Emotional Learning (SEL)

As experts in educational toys, we empower educators to discover and nurture each child's talents, through the understanding of their emotions, development of empathy and respect towards their peers regardless of who or how they are. Contributing to a world that is more open-minded, inclusive and tolerant of diversity.

miniland

Developing Multiple Intelligences

Inspired by **Gardner’s Theory of Multiple Intelligences**, according to which intelligence in children is not a single, static quality, at **Miniland** we believe that empowering twenty-first-century skills with multiple play experiences will encourage the formation of communities of educators and children inspired by active collaboration, collective creativity and continuous learning.

Our Key Points

1. Our toys, tools and resources challenge young students to learn in a balanced way, evolving beyond current educational standards in harmony with the **Theory of Multiple Intelligences**.
2. They enable educators to teach from multiple approaches while detecting each child’s innate abilities, talents and intelligences.
3. And attain and surpass the different phases of educational development from multiple mental frameworks and detect each child’s innate skills and intelligences.
4. Children will develop a deep level of understanding from multiple angles that enables them to put into practice what they learn, both inside and outside the classroom, individually and collectively.
5. The multiple intelligences is a practical approach that promotes the multiple learning, combining play experiences based on physical and digital environments with **Miniland “teach&play”** (minilandteachandplay.com).

Eco-Friendly Collection

For a More Sustainable World

We are placing our grain of sand in developing **eco-friendly toys** that are more respectful of our environment. Little ones will learn the importance of taking care of the planet we live in while having fun playing!

The toys continue to be highly resilient and durable which allow them to be used for a longer period of time and therefore also contributing to a more sustainable and responsible use.

Miniland's eco-friendly toys contain **natural materials** such as vegetable-originated fibers reducing their environmental footprint and not jeopardizing the toy's quality and overall properties.

Moreover, this year our wood from sustainable woods, will be certified by FSC label.

Our SEL Collection

Miniland, our commitment to SEL & DEI

For more than 30 years, at Miniland we have developed numerous educational toys that help promote emotional intelligence and develop social skills. For us, SEL and DEI are in the heart of our brand.

Here we present a brief selection of the toys that can help you implement these methodologies with students from Pre-K onwards.

What is SEL?

Social emotional learning (SEL) is a methodology that helps students to better understand their emotions and develop empathy for others.

This will help them create frameworks to achieve their goals and build positive relationships with others but also to make positive and responsible decisions in the present and in the future.

SEL can be taught to as young as Pre-K students and it involves five core competencies that can be applied in the classroom, at home, and in students' communities. These five core competencies are:

- **Self-awareness**
- **Self-management**
- **Social awareness**
- **Relationship skills**
- **Making responsible decisions**

What is DEI?

Diversity, Equity and Inclusion (DEI) is a term used to ensure all people, regardless of race, gender, or other demographic attribute, are able to succeed in their environment.

Enhancing diversity, equity and inclusion (DEI) is a major priority for many schools. At Miniland, as educational toy experts we understand that diversity is less about what makes children different- their origin, race, ethnicity, gender, functional diversity or any kind of diversity- and more about understanding, accepting and valuing those differences..

Miniland Dolls Collection

A More Tolerant World Towards Diversity

With our dolls collection, we help little ones understand values of inclusivity and coexistence through play, by promoting empathy and accepting people of any origin, gender or condition.

Our anatomically correct dolls are the perfect toy to learn **SEL (Social & Emotional Learning)**, to enhance social abilities and creativity by free playing in the classroom or even at home.

Every single one of our dolls is handmade in Europe. They are made of soft vinyl and they meet all the European and American safety standards and regulations.

Discover the Collection

We present various ranges in different sized versions. Highlighted by well defined features to help identify the **most representative features from children around the world**.

Their heads, arms and legs are jointed to provide them with mobility. And all of them are **anatomically correct**. Suitable for collective use.

Light Tables & Resources

The translucent effect

Discover all our new resources for Miniland lightpads: a selection of translucent materials to make the most of this sensorial and manipulative activity that **promotes the stimulation and help the little ones to focus.**

With our translucent resources, kids will be able to have an active role, think and experiment through manipulation of elements in different shapes and colors. So they will learn in an easy self directed environment while having fun. An approach based on **Reggio Emilia educational pedagogy** and her principles of respect, responsibility and community through exploration, discovery and play.

INFANT TOYS

Figuring out how the world works!

This collection helps early development of a child's social, intellectual, language, and problem-solving skills by developing eye-hand coordination as well as learning to recognize patterns and colors, how things are similar and different, and spatial concepts like "up" and "down."

Mindful Kids allows you to choose between 6 game discs depending on which need you wish to work on: conscious breathing, relaxation, yoga or meditation. The teaching guide illustrates the different exercises step by step.

CHOOSE A DISC AND SET THE TOP IN MOTION

With the help of the pupils, carry out the activity that the lower part of the spinning top points to. You can find in the included guide how to follow each activity or, even better, use miniland **teach&play** on-line interactive resources to follow the spinning top activities (step-by-step animations)

FEEL LIKE YOU ARE PART OF NATURE

Help the participants to concentrate, through postural and breathing patterns, as well as the dialogue of sensations.

You will find countless digital and interactive resources, free of charge, at miniland **teach&play**, to facilitate and liven up the staging of the spinning top activities (step-by-step animations, songs, ambient sounds and a timer for the sessions). On **minilandteachandplay.com** you may also find a digital library where you can access more game activities and dynamics, as well as two digital game programs (coloring mandalas and relaxing massages), all of which are available at no charge.

REMEMBER THAT YOU CAN EXTEND YOUR EXPERIENCE WITH THESE FREE DIGITAL RESOURCES TO MAKE MINDFULNESS SESSIONS A UNIQUE EXPERIENCE:

Step-by-step animated drawings showing the techniques:

- Conscious Breathing
- Muscular relaxation
- Meditation
- Yoga postures

Moreover, you can expand the physical game with specific printable activities:

- Colouring in mandalas.
- Relaxing massages.

BBQ Emotions!

This huge skewer helps kids recognize and manage their emotions. Two teams, playing either individually or in a group, recognize and interpret everyday scenes to then compare them and talk about the emotions that that same situation provokes in them. It makes it possible to work on up to ten different emotions through three game dynamics that are included in the didactic guide.

Content: 1 skewer, 1 base, 10 beads, 20 stickers, 10 game cards, 1 poster and 1 teaching guide.

CPQ: 4 units 📏 19"

GAME MODES

CHOOSE THE EMOTION

The first team represents an everyday scene. The second team then has to insert the emotion or emotions that the scene has suggested to them on the skewer.

HOW DO YOU SEE IT?

The two teams explain the different emotions the same situation has produced in them.

TELL A STORY

The first team tells a story made up of five different situations. The opposing team has to complete the skewer with an emotion for each of the situations that have been narrated.

IT CREATES A FUN ENVIRONMENT IN WHICH TO EXPRESS EMOTIONS AND LEARN HOW TO DEAL WITH THEM

45401 UPC: 8413082454012

Emoticapsules

Capsules that represent the basic emotions, which help to recognize and manage one's own emotions. The participants insert the game cards, which show everyday situations, or photos, drawings or other objects, into the capsules whose mood they suggest. This game can be played individually or in groups and all the capsules nest within each other for easy storage.

Content: 6 capsules, 10 cards and 1 brochure.

CPQ: 4 units 5 1/8" / Ø 2 3/4"

Inviting children to recognize daily objects with feelings and emotions, as a start to identify similarities and differences in these emotions

MINILAND DOLLS

Dolls of the world

Our Miniland Dolls collection focuses on helping little ones understand they belong in the world: by promoting inclusivity and acceptance, identifying emotions, and respecting the feelings of others; all through the fun and value of play. Available in an array of ethnicities and genders, our Dolls hope to represent the beauty of our differences, respecting every child, no matter their origin, sex, or condition. In addition, our Dolls help enhance social and cognitive abilities and enhance creativity through independent play in the classroom or at home.

We want to contribute to a world that is more open, inclusive and tolerant towards diversity by promoting empathy and accepting people of any race, gender or condition.

Every single one of our dolls is handmade in Spain. They are soft and they have defined features.

They are anatomically correct, which means that they look exactly the same as real babies and they help children learn about their differences and similarities, thus promoting empathy and their acceptance of people of any race, gender or condition.

REMEMBER THAT YOU CAN EXTEND YOUR EXPERIENCE WITH THESE FREE DIGITAL RESOURCES!

NEW

Baby Dolls 15"

These dolls make it possible to raise children's awareness of diversity and inclusion, encouraging the values of equality, integration, and acceptance. They are anatomically correct, which means that they show the physical differences between boys and girls in a realistic way. They are made of soft and flexible vinyl. They are articulated and scented with a light vanilla aroma.

Content: Doll with underwear in box or polybag.

Send a message

Send a Message enables kids to create messages in a cooperative and manipulative manner, promoting the structuring of children's language. It promotes the development of communication skills and helps develop language, the acquisition of new vocabulary and the structuring of phrases, stimulating oral production and active listening among equals. A first approach to reading with a playful communicative focus.

Content: 4 game boards, 64 pegs, 105 pictures and 1 teaching guide.

CPQ: 4 units 📏 14 3/8"

14 3/8"

SEND A MESSAGE

Helps children to structure language in a fun and very manipulative way. "Very useful as a first approach to reading and writing, in a communicative and playful manner". Send a Message is an excellent resource for preparing language lessons, as it enhances the communication and oral expression of the players, whether playing in their mother tongue or with a multilingual approach.

It has three game dynamics, of increasing difficulty:

Send Your Message

The challenge is that between them, all members of one team have to stick pegs onto a base to create a message that the opposing team has to decode as soon as possible.

Detect The Intruder

Players are asked to detect the word intruder. The aim is to become familiar with the different semantic fields. Only two peg bases will be used for this game.

The Crazy Message

The purpose of this dynamic is to work on children's creativity in a cooperative way. Participants have to send a message that they have made up spontaneously.

WITH MINILAND TEACH&PLAY YOU CAN CUSTOMIZE “SEND A MESSAGE” TO PLAY WITH YOUR OWN PICTURES!

- Drag the picture you want to the on-line template circle
- Select the color of the edge of the circle in accordance with the type of word you wish to have
- Print it and cut out the circles with your pictures.

★ BUILDING SETS

Building environments that encourage and enhance problem solving from a young age

We take building sets a step forward by offering a wide range of toy solutions aimed to develop strong motor skills, hand-eye coordination, spatial and social skills and, above all, a capacity for creative and divergent thinking.

In Miniland we take care of kids, we take care of the planet. And because we care about the world we live in, we have taken a step that brings us closer to sustainability with our eco-friendly toys collection, made with materials that reduce the environmental footprint and whose durability allows a more responsible and lasting use of the toy over time.

ACTIVE & OUTDOOR TOYS

Stimulating fresh creativity and well-being

Miniland outdoor learning toys encourages children to think of learning as an ongoing process instead of just something done in the classroom or at home.

Being outside, children's imagination are often stimulated by the objects around them and they quickly tap into their creativity. With more room to play in, children are often more active when outside, which helps them build strong bones and good fitness levels and make them feel happier and calmer.
