# magical collection, to dream by the art of magic

## Make dreams reality

Stars and moons characterize Miniland's latest collection, focused on moms and dads who give free reign to their little ones' creativity. Because fantasy and imagination will open the way to a new world where their wishes and dreams can come true.

This new line encompasses many different needs, from the most innovative items to those that form part of baby's daily life. Our soft magic wands with a night light or our no-more-fears lamps, while highly decorative, will mean your little one never feels alone. Our soft toys come in the form of a fairy and a pixie while developing bonds with parents.

Other basics in baby care complete the collection, such as our care kit and our magical thermometer, essential for bath time. Plus, other items that are highly practical outside the home like thermal bottles, the pacifier holder or the healthcare book, essential for medical appointments.

And for the first time in 2022, we've added two new types of thermal bottles, ideal for school or nursery, and little ones can choose their favourite character from the Magical collection: the fairy or the pixie.
