Dolls of the World

At Miniland we have one objective. Have little ones' talents shine in an adventure into the future where learning and creativity flow with a unique energy full of joy.

We are here to accompany you along this journey, the one of discovery, to push little one's talent to its full potential and inspiring them to do their very best.

We want to contribute to a world that is more open, inclusive and tolerant towards diversity

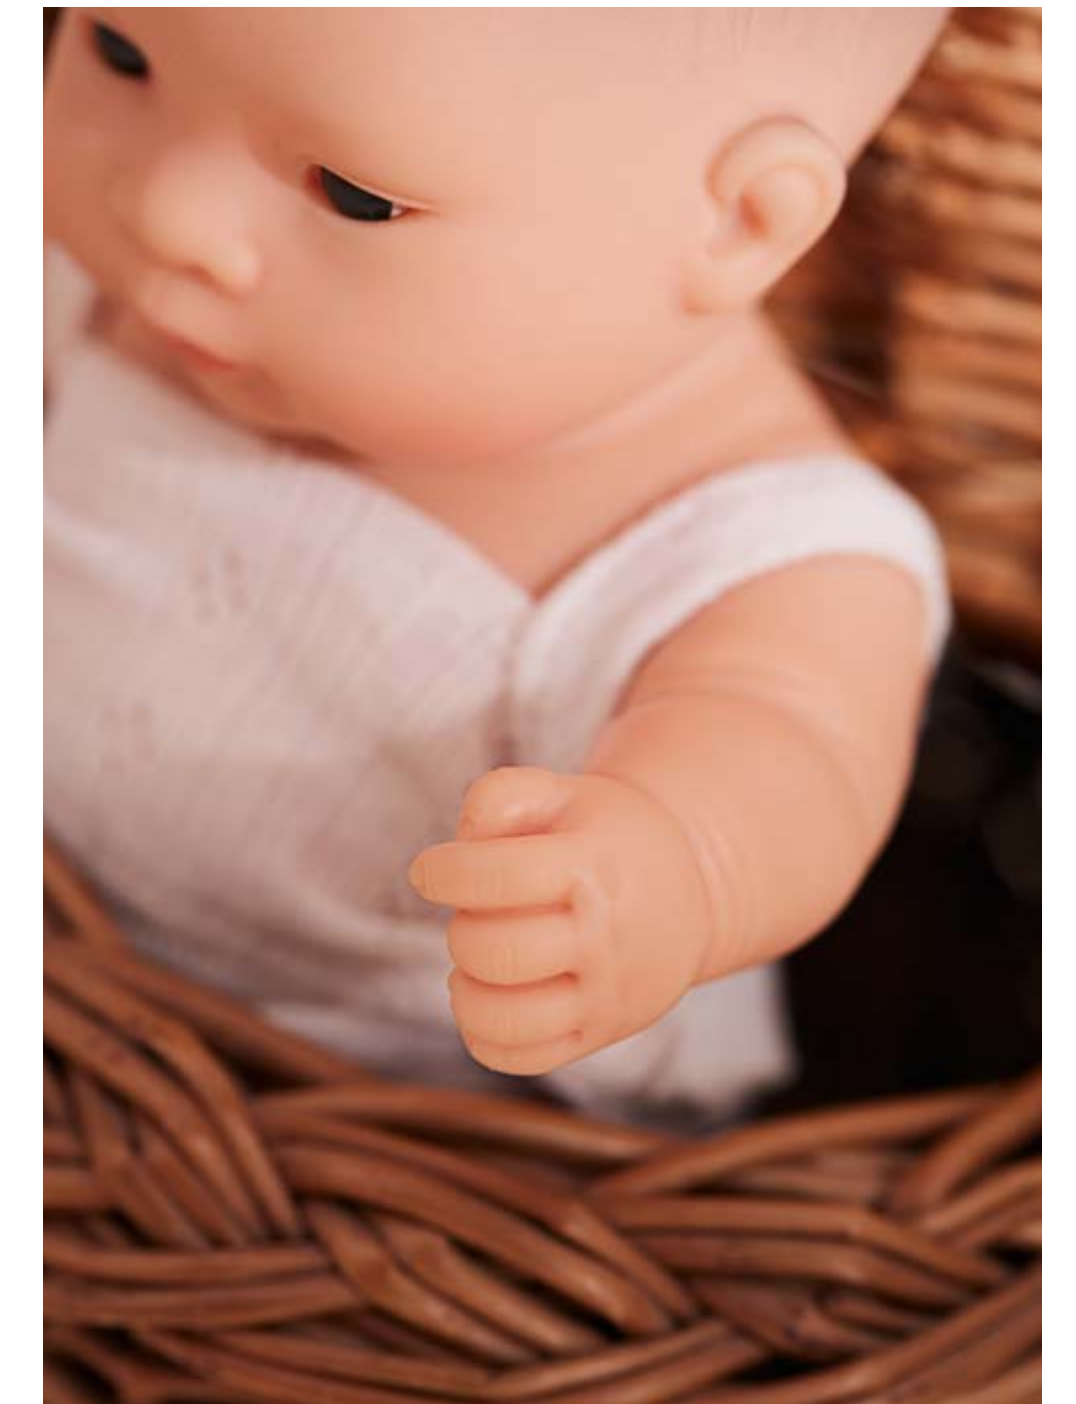

With our doll collection, we will help little ones understand their own emotions, values of inclusivity and coexistence through fun and play.

“By promoting empathy and accepting people of any race, gender or condition”

They look exactly like real babies, they are soft and lightly scented

Every single one of our dolls is handmade in Spain. They are soft and they have defined features.

They are anatomically correct, which means that they look exactly the same as real babies and they help children learn about their differences and similarities, thus promoting empathy and their acceptance of people of any race, gender or condition.

New packaging presentations

“How to dress” and “Dress your baby” collections

Our “How to dress” and “Dress your baby” collections come with the most common every day outfits and accessories used for babies at bathtime, an afternoon nap, or going for a walk, to help children identify daily situations and promote their autonomy through self-awareness.

The clothes have different types of fasteners that stimulate children's fine motor skills when they dress their doll over and over again.
